

BHUKYA AKHIL

SOFTWARE DEVELOPMENT ENGINEER – BACKEND

Hyderabad, Telangana, India | +91 7331107036 | akhilbhukya16@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Worked as a Frontend Developer Intern at Vaishnavi Technologies, where I handled web application development, REST API integration, API testing and debugging. Also worked on Java and Spring Boot backend projects involving REST APIs, database work and PayPal payment integration, with working exposure to AWS, Docker and Functional Programming.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern — Vaishnavi Technologies Pvt. Ltd., Hyderabad Aug 2024 – Nov 2024

- Worked on features for a customer-facing web application using HTML, CSS and JavaScript, and worked closely with the backend team on REST API integration.
- Checked REST API responses and traced frontend-backend data flow issues, and fixed defects found during QA and before release.
- Looked into bugs reported during testing, traced the root cause across UI and API layers, and checked fixes through the development and testing cycle.
- Used Git and GitHub for version control and worked with team members across development, testing and release cycles.

PROJECTS

AI-Powered E-Commerce Web Application [\[GitHub\]](#) Sep 2025 – Jan 2026

Java, Spring Boot, REST APIs, Oracle SQL, PayPal

- Worked on Spring Boot backend services for product and order workflows using REST APIs.
- Added PayPal payment integration to handle payment processing and transaction workflows, along with the related payment API communication.
- Worked with Oracle SQL for database-backed CRUD operations, and added request validation and error handling to keep things reliable.
- Added AI-based features through application APIs, and worked on debugging and integration testing across the backend.

NEXUS — Social Intelligence Workspace [\[GitHub\]](#) Feb 2026 – Aug 2026

Java, Spring Boot, MySQL, REST APIs, WebSocket, React

- Built a Java and Spring Boot backend with REST APIs and MySQL for a social platform with feed, chat and contacts, along with a React frontend.
- Worked on controllers, service layer and JPA repositories for posts, comments, contacts and messages.
- Added database-backed CRUD workflows with real-time updates through WebSocket, along with validation and error handling for consistent API responses.

AI Application using Ollama and Spring Boot [\[GitHub\]](#) 2025

Java, Spring Boot, Ollama, REST APIs

- Connected a locally hosted Ollama runtime with a Spring Boot application to process prompts and generate responses.
- Used REST APIs for communication between the Spring Boot backend and the local Ollama service.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Backend: Spring Boot, Spring MVC, Hibernate, JDBC, REST APIs, WebSocket

Payment and Integration: PayPal, Payment APIs, REST API Integration, Third-Party API Integration

Database: Oracle SQL, MySQL, PostgreSQL, Database Transactions

Systems: Data Structures, Algorithms, Object-Oriented Programming, Functional Programming, Distributed Systems

Cloud and Tools: AWS, Docker, Git, GitHub, Maven, Postman, API Testing, Integration Testing, Debugging

EDUCATION

Bachelor of Technology — Computer Science and Engineering 2022 – 2026

Malla Reddy Institute of Technology, Hyderabad | CGPA: 8.08 / 10

Intermediate (MPC) 2020 – 2022

Sahithi Junior College, Khammam | CGPA: 8.6 / 10

CERTIFICATIONS

- [Java Full Stack Development](#) — JSpiders | Certificate | Ref ID 543349 | 27 Jul 2026
- [Introduction to Artificial Intelligence](#) | Certificate | Completed June 2025
