

BHUKYA AKHIL

Software Engineer

Hyderabad, Telangana, India | [+91 7331107036](tel:+917331107036) | akhilbhukya16@gmail.com
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Software Engineer with strong foundations in Java, C, Data Structures and Algorithms, OOP, Operating Systems and backend engineering. Hands-on experience building distributed, scalable and concurrent systems using Java, Spring Boot, REST APIs, WebSocket, databases, multithreading and client-server architecture. Strong problem-solving background with experience in payment workflows, authentication, API integration, debugging, troubleshooting and reliable system development.

Technical Skills

Languages:	Java, C, Python, SQL
Core Computer Science:	Data Structures & Algorithms, OOP, Operating Systems, DBMS, Compiler Design
Backend Development:	Spring Boot, REST APIs, JDBC, Hibernate, WebSocket
Systems & Architecture:	Distributed Systems, Scalable Systems, Multithreading, TCP/IP, Sockets, Client-Server Systems
Software Engineering:	Design Patterns, SDLC, TDD, Testing, Debugging, Troubleshooting, Error Handling
Databases & Tools:	MySQL, Git, GitHub, Maven, Linux

Projects

REDIS IN JAVA Jun 2026 – Aug 2026

[GitHub](#) | Java, Distributed Systems, Multithreading, TCP/IP, Sockets, Database Systems

- Built to understand how high-performance backend data systems manage client requests and in-memory data, addressing concurrent processing and reliable request handling through a Redis-style key-value server.
- A Java-based in-memory database server providing key-value storage, command processing, TCP/IP socket communication and client-server request-response workflows across concurrent clients.
- Using Java, multithreading, distributed-system concepts and database management to handle concurrent requests, with debugging and testing focused on scalable and reliable backend processing.

NEXUS – SOCIAL INTELLIGENCE WORKSPACE Apr 2026 – Jun 2026

[GitHub](#) | Java, Spring Boot, REST APIs, WebSocket, MySQL, OOP, Design Patterns

- Created to address fragmented communication and transaction workflows by combining WhatsApp, Instagram, Facebook and X inspired functionality with authentication and payment capabilities in one unified workspace.
- A centralized Java and Spring Boot backend integrating REST APIs, WebSocket, MySQL, authentication checks, UPI interactions and payment workflows across connected application modules.
- Applying OOP and Design Patterns to maintain backend components while testing, debugging and troubleshooting API, database, authentication, payment and real-time communication workflows.

C COMPILER FROM SCRATCH Jan 2026 – Mar 2026

[GitHub](#) | C, Compiler Design, Systems Programming, Operating Systems, x86-64 Assembly, TDD

- Built to understand how source code is transformed into executable instructions and to solve compiler-level problems involving parsing, semantic validation, memory and stack behavior.
- A scalable C compiler pipeline covering lexical analysis, recursive-descent parsing, AST construction, semantic analysis, symbol-table management and x86-64 code generation.
- Using C, data structures, compiler design and Test-Driven Development with compiler diagnostics, AST inspection, semantic validation, debugging and end-to-end testing for reliable compilation workflows.

Professional Experience

Frontend Developer Intern – Vaishnavi Technologies Pvt. Ltd. Aug 2024 – Nov 2024

Hyderabad, India

- Contributing to application reliability by testing REST API responses and tracing data flow between frontend and backend components to identify inconsistencies and validate application behavior.
- Resolving UI and API issues through systematic debugging, troubleshooting and root-cause analysis, followed by repeated testing to verify fixes across application workflows.
- Supporting software development, testing and release activities using Git and GitHub while following structured development and validation practices.

Education

Malla Reddy Institute of Technology	Hyderabad, India
Bachelor of Technology – Computer Science and Engineering; CGPA: 8.2/10	2022 – 2026
Sahithi Junior College	Khammam, India
Intermediate MPC; CGPA: 8.6/10	2020 – 2022

Achievements

- Hackathon Winner – College Level:** Secured first place for problem-solving, teamwork and delivering a working prototype under time constraints.
- College Placement Leader Appreciation:** Recognized for leading placement-related activities, communication and supporting peers through the placement process.

Certifications

Java Full Stack Development – JSpiders Certificate	27 Jul 2026
Introduction to Artificial Intelligence Certificate	Completed June 2025
